

SEEKOUT // PRODUCT UPDATE

AI recruiting just leveled up.

Everything new in SeekOut, from recruiting inside your favorite AI assistant to AI interviewing. Here is the tour.

2025 → 2026

- THE SHIFT

From searching for candidates to getting results.

We rebuilt the SeekOut workflow around one idea: you describe the role, and the platform does the heavy lifting, from sourcing to screening to outreach.

- SEEKOUT MCP

Recruit from your favorite AI assistant.

Search across 7 talent verticals and run 14 guided workflows, from sourcing to market analysis, without leaving the assistant you already use. Every search links straight back into SeekOut.

Gemini

Copilot

- SAM, AI INTERVIEWING

Structured screening, on autopilot.

Sam runs rubric-based, asynchronous interviews on its own or right inside Recruit, then hands you clean, structured results so you can compare candidates with confidence.

- WORKSPACES

An AI-guided workflow for every role.

Job description in. Ranked, evaluated shortlist out. Workspaces walk you through it step by step, from search to scorecards to outreach, all in one place.

- WORKSPACE EXPRESS

Job description to shortlist in one step.

01

Paste a JD

Drop in or upload the role you are hiring for.

02

AI pulls the criteria

SeekOut extracts must-haves and nice-to-haves.

03

Review and run

Tweak, click Apply, and the search runs.
